

Website Audit Report

UX Issues - Score: 95/100

1. Email Input Type

Issue: The email input uses `type="text"` instead of `type="email"`.

Fix: Change `type="text"` to `type="email"`.

Severity: Major

Accessibility Issues - Score: 95/100

1. Missing Labels

Issue: Form input elements lack associated labels.

Fix: Add `<label>` elements to each input field.

Severity: Minor

Console Issues - Score: 95/100

1. Console Logs

Issue: A console log is present in the production code.

Fix: Remove `console.log("Loaded bad login page...");` from the script.

Severity: Critical

Security Issues - Score: 80/100

1. LocalStorage Usage

Issue: Sensitive authentication token is stored in localStorage.

Fix: Remove `window.localStorage.setItem('authToken', '12345abc');`

Severity: Critical

2. Sensitive Key in LocalStorage: authToken

Issue: Found suspicious key in localStorage: authToken

Fix: Avoid storing sensitive information like tokens or passwords in localStorage.

Severity: Critical
